# Scores Tab

All players that need a score for a round have an asterisk preceding their name. As you enter player scores, the player name is removed from the drop-list. This is to speed up the data entry process. If you want to see all of the players, just check the “Show All” checkbox.

**TIP: Enter the bumps, woodpeckers and Lone data before you enter the score data. As soon as the score is entered, the player name drops off the player list, if the “Show All” checkbox is not checked.**

When you enter the score for a player, his/her partner will receive the same score. This is also a time saver. In this release, however, you must select each player to enter their auxiliary data (bumps, lones, woodpeckers)

If you want to see a players partner, just click the “Show Partner” button. Notice that the text on the button changes to “Show Opponents”. Click the button again and you will see the opponents of the currently selected player.

The screenshot shows the 'Scores' tab of the 'Turkey Eve Euchre Tourney' application. At the top, there's a header with the tournament name, a 'Bump Jackpot' of \$.00, and a 'Score Sheet Code' of 1106-202904. Below this, a status bar shows 'Time: 07:01', 'Total Players: 24', 'Current Round: 1', and 'Total Rounds: 23'. A navigation bar includes buttons for 'Load', 'Payout', 'Alias', 'Roster', 'Leaders', 'Scores' (selected), 'Results', 'Details', 'Timer', 'Lotto', and 'Settings'. The main area is divided into sections for 'Player Round Score', 'Partner Round Score', and 'Opponent Round Score'. Each section has a 'Name' field, a 'Score' field, and a 'Show All' checkbox. Below each name field are cumulative values for 'Bumps', 'Woods', and 'Lones', each with a dropdown menu. To the right of these is a 'Score' field and an 'Owe' section with a 'Paid' checkbox and a '\$.00' amount. The bottom of the interface features a 'www.EuchrePad.com' link and an 'Update Dual Monitor' button.

# Bumps/Woodpeckers/Lones

Bumps/Woodpeckers/Lones are cumulative. They don't need to be entered after each game, but should be entered before the end of the tournament.

Once all of the scores have been entered for a round, you will be prompted. Press OK and it will automatically advance to the next round.

# Dual Monitor

If you want to use a second monitor, then you will be able to display important leader details. This works best if Leaderboard is running on a Laptop and you connect a second monitor into the monitor port on the Laptop. Then you need to extend your monitor to the second monitor. Activate the second monitor by pressing the “Dual Monitor” button at the bottom-right of Leaderboard. The Dual monitor is only updated when a round is completed and all of the scores for the round have been entered. You can force a refresh by simply pressing the ‘Dual Monitor’ button.
