3. On the Printing Page, be sure to download both the Score Cards and the Data File.

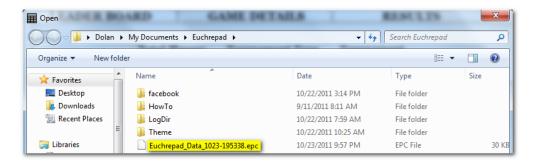

4. Downloading the Data File.

5. On your PC, start the Leaderboard.exe program, you should see a screen similar to that below.
   a. Press the "Load" button to import the Data File that you just save above.

6. This show the location of the Data File on the Local Drive.

7. This is what the screen looks like after the Data File is loaded. Notice the Title is updated and the Score Sheet Code in the upper right-hand portion of the screen has the same code that matches the code on the score card. Also the Total Players is updated as well.

8. Click on the Fees/Payout Sidbar Tab and notice that the Bump and Woodpeckers fees are updated from the Data File. If you want to charge an entry fee for your tournament, then enter it on this page. Deduct your expenses and your payout is automatically calculated. You can use the standard 50-30-20 payout or you can customize your own.

9. This shows the Custom Payout screen.

TIMER

11. Now you are ready to start your tournament. Click on the Leader Board Tab. You will be on this tab almost entirely during the tournament. At the end of each round, you enter player scores by double-clicking on their name. Since we imported the Data File, it knows who each partner is, so you only need to enter the score for one player on the team.
